

This route takes us to the “Raso de los Enebro” where every year, the villagers come together to celebrate “Romería de la Cruz de Mayo”. This path is perfect for kids because of its short length and low difficulty level. There is also a circular track for cycling.

Start by leaving from the Constitución Square, going through Jose Antonio Avenue heading towards Matalpino and when you get to the church of “San Andres” take the Fragua street on your right and seventy meters later, follow a path on the left. On your way, cross the Angostura’s creek which is surrounded by beautiful riverside vegetation and a huge diversity of amphibians like frogs and toads, among others.

The track leads to the “Raso de los Enebro”, it has stone tables and benches which can be used to enjoy the environment and beautiful landscapes of the Sierra de Guadarrama while you rest and recharge your energy.

Continue through the track that goes to the north to come to Arenas Street and come back through Arenas Street until you get to the church again and go ahead passing through Jose Antonio Avenue to the Town Hall.
